

# Power UP: Science ACT Prep, Week 1

Goal Setting

# Essential Question

How can I raise my ACT score?

# Learning Objectives

- Understand the purpose of the ACT and the importance of the science section.
- Evaluate current ACT performance and set a realistic goal for the overall test and the science component.

### ACT Advice From Students #1

# Point of Most Significance

- What is your main takeaway from the video?
- Which suggestion did you find most valuable?

# ACT Student Login

- Using a personal device, access the ACT website at <https://my.act.org/account/signin>
- Or type act.org into a web browser.
  - Click MyACT Sign In in the top right corner.

# Goal Setting: Where I Am

- Fill in the power bar to your current composite score on the Goal Setting handout.
- Fill in the power bar to your current science score on the handout.

# Oklahoma College Admission and Scholarships

24

- Upgrade: Unlock access to scholarships at research and public liberal arts universities
- Warp Zone: Unlock admission at most research and public liberal arts universities

21

Upgrade: Unlock access to scholarships at regional universities

20

Warp Zone: Unlock admission at regional universities

19

- Upgrade: Unlock access to scholarships at some community colleges
- Bypass remedial courses

# Calculating Percentage Correct

- Divide the number of questions you need to answer correctly by the total number of questions on the science test, which is 40.
- Multiply the result by 100.
- Write this number on the handout in the percentage correct box.

# Goal Setting

- Choose at least one action to increase your science score.
- Add the action to the handout.
- Refer back to the action and add the dates you practiced your goal.

# ACT Fee Waivers

[ACT Fee Waivers](#)

# Sticky Bars: Which Action Did You Pick?

- Write your name on a sticky note.
- Place your note above the action number you selected.
