

Power Up: Science ACT Prep, Week 10

Practice Test

Essential Question

How can I improve my ACT score?

Learning Objectives

- Practice and reflect on pacing to increase the number of questions answered on the science portion of the ACT.
- Navigate efficiently through TestNav during a practice test.

Let's Get Ready

Find your device and scratch paper.

TestNav: Getting Started

 Navigate to <u>home.testnav.com</u>. Then click "The ACT" button.

OR

1) Open the TestNav application on your school device.

TestNav: Selecting the Right Test

TestNav

2) Click "Practice Tests."

	40 Questions	
	SECTION DIRECTIONS: This is a multiple- choice test in science that measures skills and abilities highly related to high school course work and success in college.	
	The first screen in this section contains instructions about the science test. That screen is not part of the scored questions. You can return to the instructions at any time by selecting the <i>Review</i> button at the top of the screen and then selecting <i>Instructions</i> .	
	Write your answers on a piece of paper to self-score your results when you are finished with the test.	
	On test day, your room supervisor will provide a seal code that you will enter on this screen to proceed with the test.	
	Start	

Begin Your Practice Test

10) Now press the "Start" button.

11) Press the "Next" (arrow)button at the top ofthe screen to begin.

Congratulations!

- You completed your test.
- Make note of how many questions you answered correctly.
