**X-Ray Technician**

X-ray technicians use radiologic equipment to X-ray people or animals to help diagnose health problems.

**Accountant**

Accountants have an important job reviewing financial information for companies or individuals. They often file taxes for people and make sure companies are following finance laws.

**FBI Agent**

FBI agents work for the Federal Bureau of Investigation and investigate criminal activity across the United States.

**Childcare Worker**

Childcare workers typically own or manage a daycare facility and take care of young children and infants. They are responsible for developing daily activities for children and keeping them safe.

**Cosmetologist**

Cosmetologists provide services styling, cutting, and coloring hair. Some also apply makeup and provide nail and skincare services.

**Journalist**

Journalists collect and analyze facts to share on television news, newspapers, radio, and online. They may investigate events or interview people for their news stories.

**Paralegal**

Paralegals assist lawyers by preparing documents or researching needs as directed by the lawyer. They may help with organizing documents and items needed for a trial.

**Graphic Designer**

Graphic designers create graphics using technology like computers, tablets, and digital drawing pads. These graphics can include logos or marketing materials used by companies.

### Dental Hygienist

Dental hygienists work at dentists' offices, performing oral examinations and cleaning teeth. They may also take and develop X-rays.

### Civil Engineer

Civil engineers provide the planning and designing of buildings, roads, railroads, airports, bridges, and more.

### Car Diesel Mechanic

Diesel mechanics diagnose and repair large automobiles, such as buses and trucks, with diesel engines.

### Certificate

Welders use equipment to weld or join metal components or fabricated metal products used for construction, farm equipment, oilfields, and more.
