- 7 Support and Contact Information**

Overview

This document will guide you through the K20 Game Portal. It includes information about accessing our game-based learning (GBL) titles, assigning the games to your family, monitoring their progress, finding supplemental learning materials, and more.

Creating an Account

If you don't already have a K20 Game Portal account, visit k20center.ou.edu/getgames/ and submit the brief access request form. We'll create your account and email you an invitation code in 1–2 business days.

Game Request

You are here: [Home](#) [Contact](#) [Game Request](#)

Thank you for your interest in the educational games of the K20 Center. Please fill out this form to request access to the games and the game portal necessary to manage them.

Click

Signing Up

Once you've received the email with your invitation code, go to:
gameportal.k20center.ou.edu

Click **SIGN UP**

Enter your invitation code

Click **Sign Up with Google**

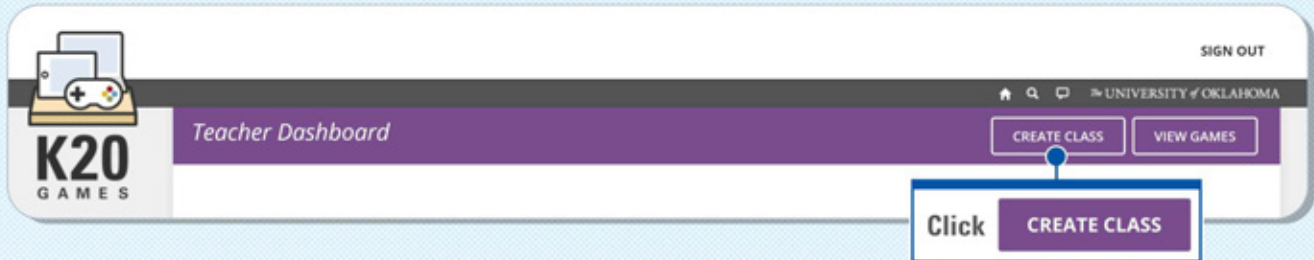

Sign Up with Google

We recommend signing up with a Google account. It is easy, and doing so assures you can recover your password if needed.

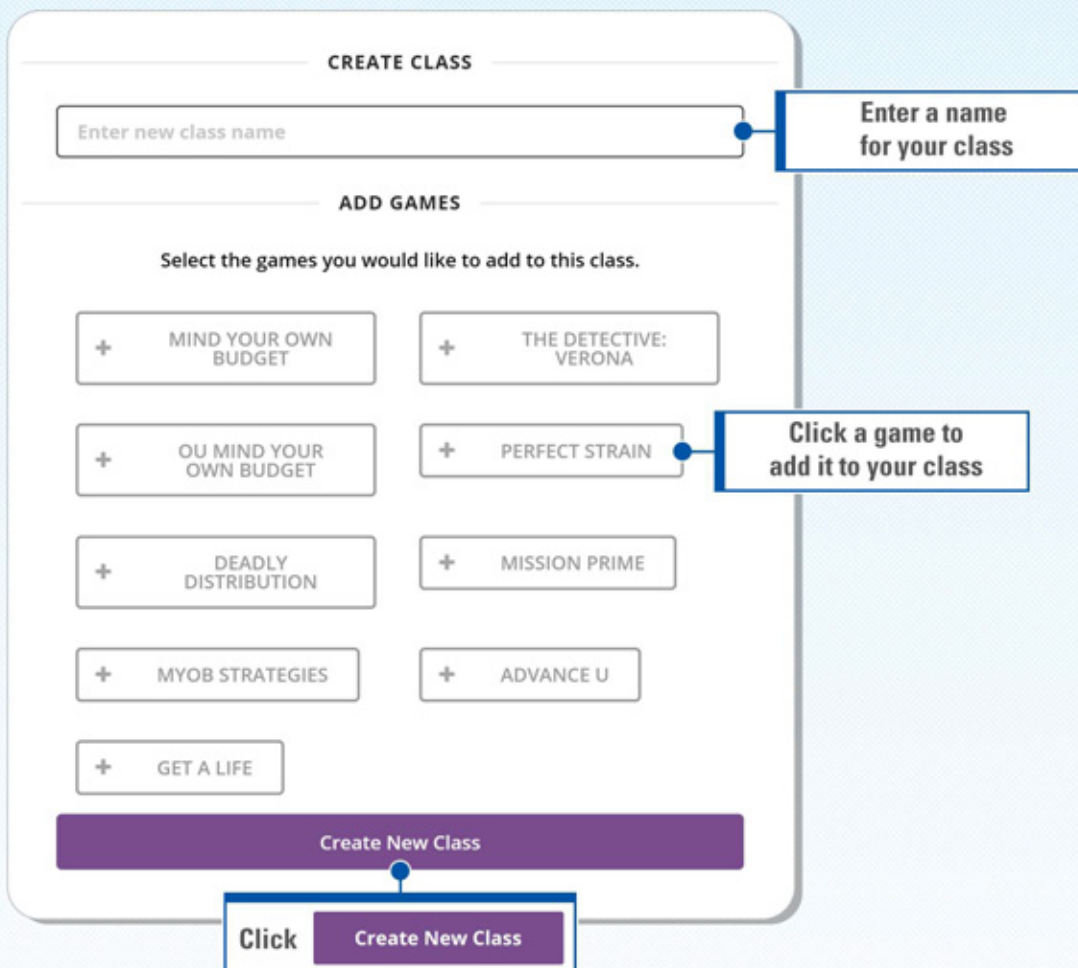

Setting Up Your Class

For your family to access the games, you'll need to create a class.

Begin by clicking the **Create Class** button.

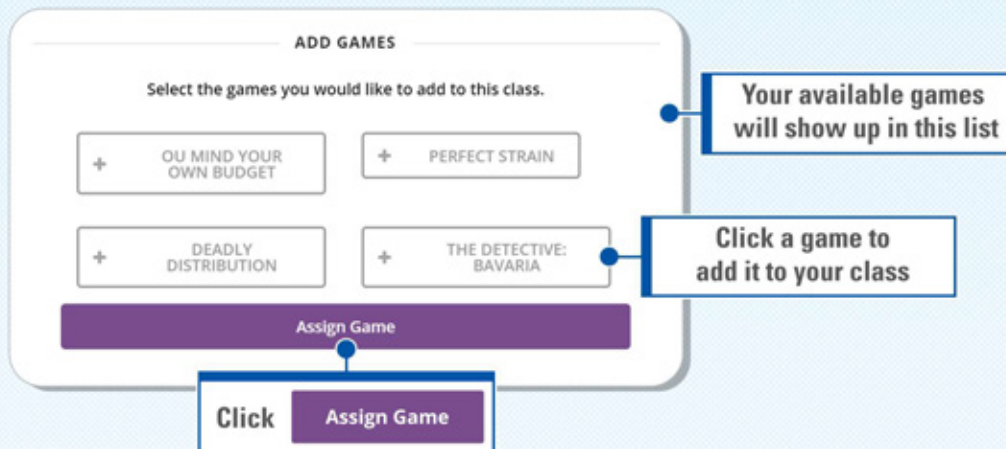

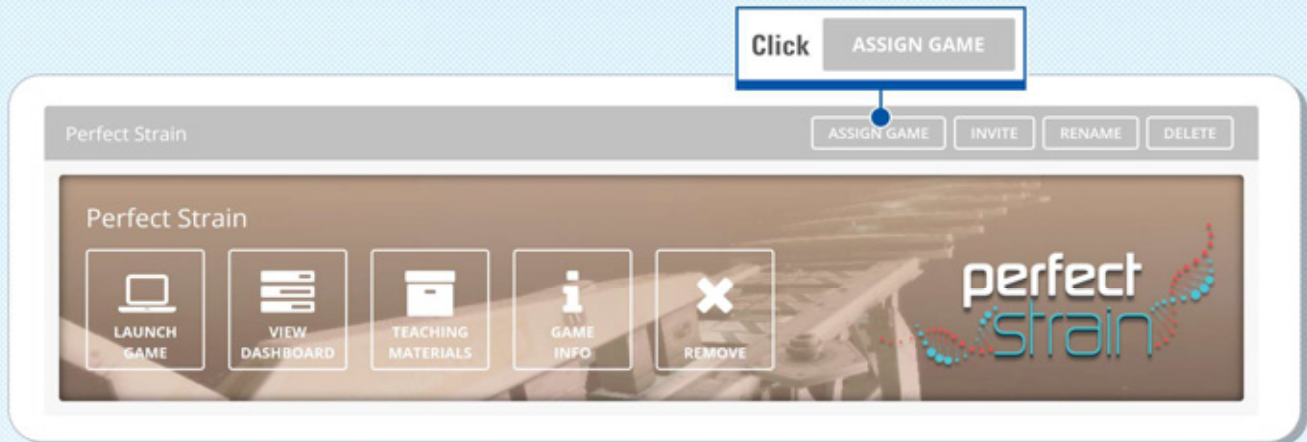

Enter a unique name for your class, then select the games you want to assign. Finally, click the **Create New Class** button.

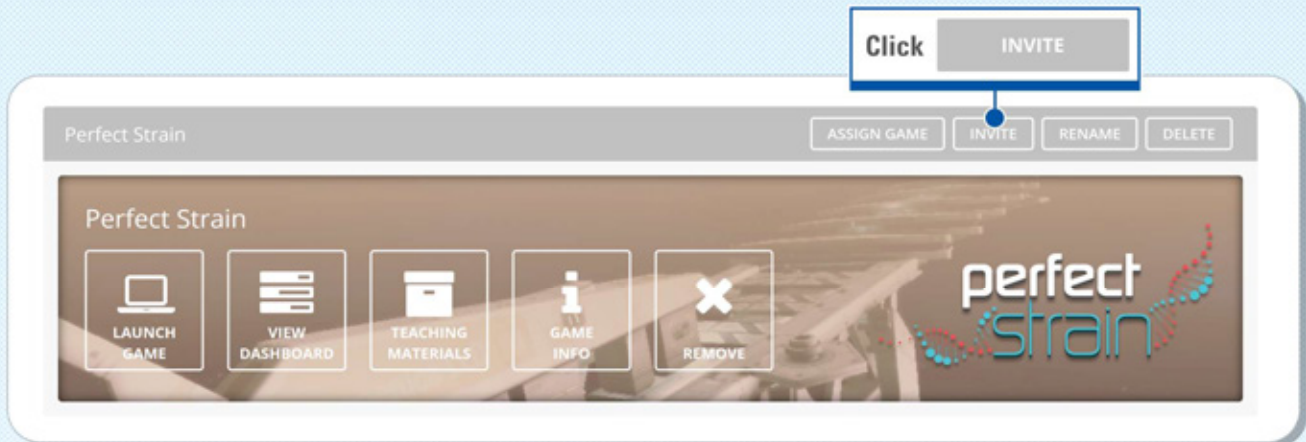

Adding New Games to an Existing Class

You can always assign additional games to a class later by clicking the **Assign Game** button and clicking on the games you wish to add.

Inviting Your Family

Once your class has been created, you can invite your family. Click the **Invite** button to generate an invitation key.

The invitation key is a unique code that your family members can use to join your class and get access to the games you assigned.

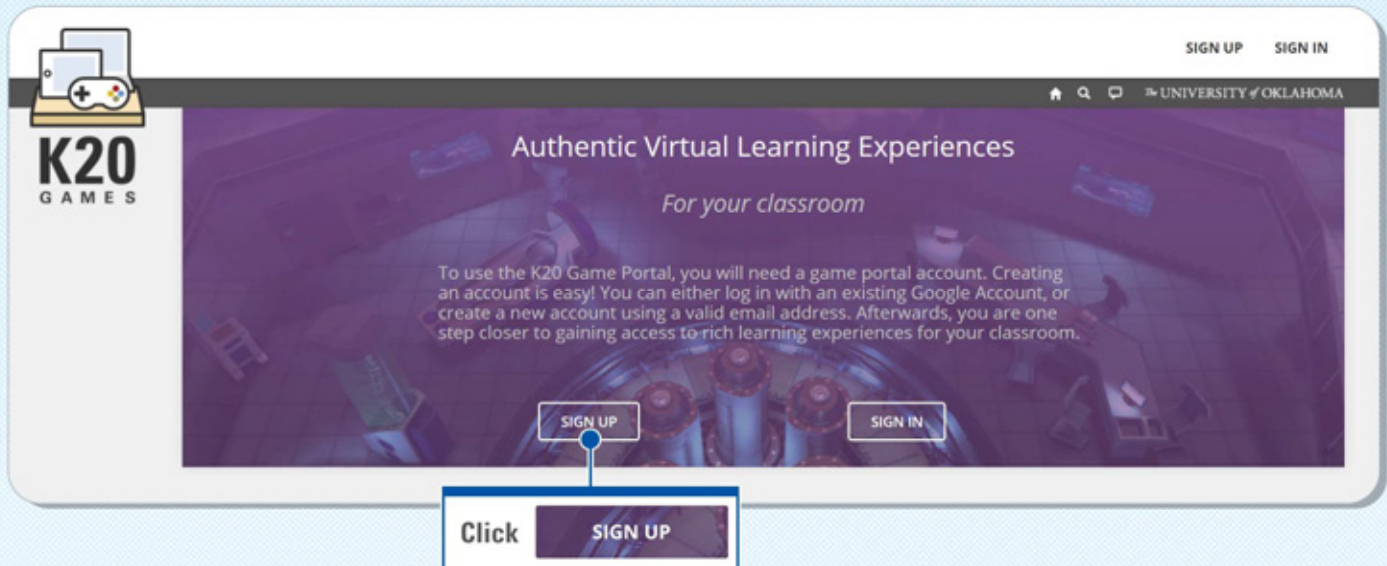

Your family should use this code to create a Game Portal account and access the games.

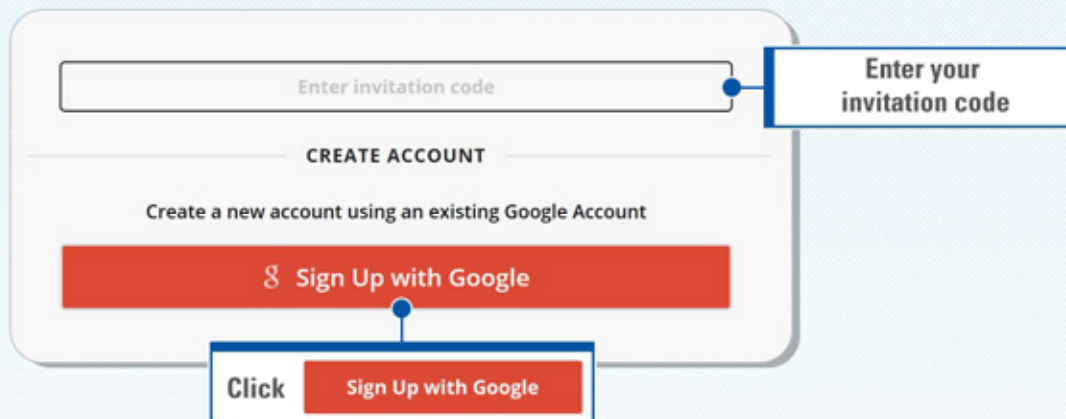

Read the "Family Sign-Up" section if you have family members without K20 Game Portal accounts. Each family member needs a K20 Game Portal account to use the invitation code and play games. For family members who don't already have an account, follow the new player sign-up instructions on the next page.

Family Sign-Up

If your family members don't already have K20 Game Portal accounts, have them go to: gameportal.k20center.ou.edu and click the **Sign Up** button.

Players will enter the invitation key you provided in the indicated field. Doing so adds them to your class.

As with parent accounts, we highly recommend family members use the **Sign Up with Google** button.

Support

K20 GBL games are supported on the Chrome and Firefox browsers and on most Apple, Windows, and ChromeOS computers with an Internet connection.

For technical issues, please visit: k20center.ou.edu/gamesupport.
