

MODEL PLANT DESIGN

Visual Model

Use the space below to create a visual model of your seed dispersal device. Include different views (e.g., top-down, side) and label each part.

Claim

Write a claim about the effectiveness of your design. Justify the purpose of its features based on what you've learned so-far.

Data

After you've constructed your seed dispersal device, use the space below to record data as you test the effectiveness of your design.

Evaluation

Based on your results, what are the strengths and weaknesses of your design?
