

SPRING CARDS

CARD 1

When you are the transmitter, send the signal displayed:

Activity 1:

Activity 2:

CARD 2

When you are the transmitter, send the signal displayed:

Activity 1:

Activity 2:

CARD 3

When you are the transmitter, send the signal displayed:

Activity 1:

Activity 2:

CARD 4

When you are the transmitter, send the signal displayed:

Activity 1:

Activity 2:

SPRING CARDS

IMAGE GENERATION

When you are the image generator, fill in with the information you are given from the receiver:

Activity 1:

--	--	--	--	--	--

- What were some strengths and weaknesses of sending signals this way?
- If you could wait between waves, how would that change the reliability of your signals?

Activity 2:

--	--	--	--	--	--

- What were some strengths and weaknesses of sending signals this way?
- How could you tell if “silence” was a blank box, a signal your receiver missed, or your transmitter taking too long to send a signal?
