

CHEMICAL EQUATIONS CHAT STATIONS - CHEMISTRY

Identify the type of reaction and write out the equation (include reactants and products). You may choose to balance the equation for extra points.

<u>Station</u> Type of Reaction	<u>Equation</u> Write the formula with reactants and products	<u>Balance the Equation</u> Determine the correct coefficients for each element/compound
Station 1 _____		
Station 2 _____		
Station 3 _____		
Station 4 _____		
Station 5 _____
