IMAGE DECONSTRUCTION AND ANALYSIS

Step 1. Observation

A. For two minutes, study the image provided and note your overall impression in the space below. Then look for individual items that pique your interest. Next, divide the image into four quadrants and study each section for new details.

B. Use the chart below to list people, objects, and activities in the image. (Use the back if you need extra space.)

People	Objects	Image

Step 2. Inference

Based on what you have observed and noted on the table above, list three things you might infer from this photo.

Step 3. Questions

A. What questions does this image raise in your mind?

B. Where could you find answers to your questions?
