

Welcome to AWARE (Advanced Weather Awareness & Response Education)!

Use the following graphic organizer to collect information about the weather event in your turn. You will use this information to create your own multimedia message about the event.

Era __, Turn __

Fill in the blank spaces above with your assigned era and turn and collect the following information before you finish your turn:

What information did you use to gather data?	
Maps & Charts	
Map Overlays (flood, population, economic)	
Spotters	

Did you issue any alerts

Alert	Yes or No?	Why or Why not?
 Weather Warning		
 Storm Siren		
 Radio Announcement		
 Broadcast Alert		

Collect the following information after you finish your turn:

What type of weather event occurred?

Circle which occurred.

Tornado	Hail	Fire	Flood
			

Circle the area in which the weather event occurred.

What was the damage?		
Economic	Total Possible Damage	Actual Damage
Human	Total Possible Injuries	Actual Injuries
Public Trust	Previous Public Trust	Current Public Trust

What did your advisors say? Summarize their reports below.

If you could change your previous actions, would you? Why or why not? If you answered yes, what would you have done?

What is the most important information to provide to the public?
