

INTERVIEW SKILLS

Common Interview Questions and How to Prepare:

Why are you interested in this job/company?

- Research the position and company before the interview.

What are your strengths and weaknesses?

- Give real strengths and weaknesses about yourself. “I care too much” or “I work too hard” are not weaknesses. Everyone has a strength and weakness! If you lie about these, your boss will know once you begin working.

How do you/others describe yourself?

- Employers will check references before hiring you, so think about what they would say about you!

Explain a time you solved a difficult problem.

- All jobs require problem-solving skills. Be prepared with an example of a time when you used this skill!

Why are you a good fit for this position?

- This is your time to shine! Brag about yourself and mention your hard skills, soft skills, and leadership skills.

What are your hobbies and interests?

- Employers like well-rounded candidates, so be prepared to mention what you do outside of school.

INTERVIEW SKILLS

Potential Questions to Ask the Interviewer:

- What does an average day look like?
- What skills are you looking for in an employee?
- What does the onboarding or training process look like?
- What does the culture of your organization look like?
- Why do you enjoy this job/career?
- What does it take to be successful in this position?
