

PITCH RUBRIC

Follow the guidelines outlined in the rubric below to develop your pitch for the general manager. Be sure to include all of the following in your pitch:

- The 11-player lineup chosen for option 1, or the recommended player trade for option 2.
- The data used to make these choices.
- The rationale behind these choices.

| | Selected Option | Lineup or Trade | Data | Rationale | Presentation |
|-----------------------|--|---|--|---|--|
| 3 Points | The selected option, 1)lineup or 2)trade, is communicated at the start of the presentation, and the reason for selecting this option is explained. | Every member of the 11 player-lineup is listed. or A player trade is recommended. | All statistics presented are factually correct. | A solid rationale is provided to justify the choices made. | Excellent delivery! Eye contact is maintained with members of the audience throughout most of the presentation, voice is clear and loud enough to be heard, and presentation is interesting and engaging for the audience. |
| 2 Points | The selected option is communicated at some point in the presentation. | Most members of the 11 player-lineup are listed. or A player trade is recommended but is not from the correct league. | Most statistics are correct, but there are 1-3 errors. | A rationale is provided, but it doesn't justify the choices made. | At least two of the following are maintained through most of the presentation: made eye contact, spoke loudly and clearly, delivered an easy-to-follow presentation. |
| 1 Point | The selected option is not communicated. | A few to no members of the 11 player-lineup are listed. or A player trade is not recommended. | Few or no correct statistics were presented. | No rationale is provided to justify the choices made. | There is little to no eye contact, diction is poor, or volume is too low for the audience to hear. |
