

CREATE A TESSELLATION

Supplies:

- Square Sticky Note
- Clear Tape
- Scissors
- A Pencil
- Things to Color with (markers, colored pencils)
- A Black Marker

Step 1: Doodle

Put your sticky note in front of you with the sticky bit at the top. Doodle two lines along adjacent sides of the note.

Step 2: Cut and Tape

Carefully cut along one of the lines and tape the shape you cut out the straight edge across from it.

Step 3: Cut and Tape Some More

Do the same for the second line.

Step 4: Trace

Place your shape down on a piece of paper, rub it gently so that it sticks, and trace it. After you've traced it once, line your shape with the edge of your tracing and repeat!

Step 5: Color

Fill in your tessellation with two alternating colors on each shape like a checkerboard. You can also add any detail to the inside of your shape that you wish.
