Theme One-Pager Directions

A Theme One-Pager uses a combination of text and images to convey a complex idea through a single page. The result should be visually appealing, easy to read, and contain little unused space.

Your Theme One-Pager needs to convey an important theme from Romeo and Juliet and how it is conveyed through your character.

Your Theme One-Pager must include:

- The name of your character (written prominently)
- An illustration of your character
- Your selected theme topic (written prominently)
- A complete theme statement related to the chosen theme topic that the character helps reveal
- Two direct quotes from the assigned reading that help support the theme statement
- Illustrations (of symbols, items, concepts, etc.) related to the character or theme to help fill in the white space
