

30-SECOND EXPERT T-CHART

In the left column, write down as much as you can about what you learn as you read your article. When you have finished, you will share your knowledge with a partner and your partner will share what they learned from their article with you. Once you have had a chance to share with your partner, fill in the column on the right with everything you have learned from your partner.

What I Know About This Topic	What I Learned From My Partner
