

Magnetic Statements for Blackout Poetry Engage Activity

I don't like writing.

Writing is difficult for me.

Writing is not fun.

I enjoy writing about things that
interest me.

I have a hard time getting started
writing.

I don't see why writing matters.

I won't need to write in the job I will
have one day.

Writing allows me to express myself.

I like writing outside of school.

Reading and writing are completely
different and aren't related.
