

## LET'S PROVE IT

**Directions.** Read your assigned passage and identify the following parts of the research method below.

**What is the Research Question(s) or Hypothesis for this experiment?**

---

---

---

**List the Independent Variable(s).**

---

---

---

**List the Dependent Variable(s).**

---

---

---

**Which participants are part of the Experimental Group?**

---

---

---

**Which participants are part of the Control Group?**

---

---

---

**Describe the Results or Conclusion.**

---

---

---

**How did the experiment comply with ethical guidelines?**

---

---

---

## LET'S PROVE IT

**Directions.** Now, take what you have learned and design your own psychological experiment. Use the space provided to record your ideas.

<b>Research Question(s)</b>		<b>Hypothesis</b>	
.....➔			
<b>Independent Variable(s)</b>		<b>Dependent Variable(s)</b>	
<b>Experimental Group</b>		<b>Control Group</b>	

How did the experiment comply with ethical guidelines?
