

# Who Am I? Creating and Editing Descriptive Writing

This work is licensed under a <u>Creative Commons CC BY-SA 4.0 License</u>

**Grade Level** 7th Grade **Time Frame** 2-3 class period(s)

**Subject** English/Language Arts **Duration** 100 minutes

**Course** Composition, Creative Writing

## **Essential Question**

How can sensory details add to a piece of writing? What makes me who I am?

### **Summary**

In this lesson, students explore descriptive writing and sensory details then use those concepts to create a short piece of writing. Students consider examples of sensory details, identify sensory details in a short work, then create a descriptive, self-reflective work using writing that appeals to the five senses.

# **Snapshot**

#### **Engage**

Students complete a focused free-write about their life and identity.

#### **Explore**

Students watch a short video about including sensory details in writing, then use sensory details to describe a block of cheddar cheese.

#### **Explain**

Students brainstorm and share examples of sensory words.

#### Extend

Students identify sensory details in a piece of writing, then respond to a prompt using sensory details.

#### **Evaluate**

Students read and provide feedback on each other's writing, then create final drafts using the notes from their peers.

#### **Standards**

ACT College and Career Readiness Standards - English (6-12)

**TOD 403:** Use a word, phrase, or sentence to accomplish a straightforward purpose (e.g., conveying a feeling or attitude)

Oklahoma Academic Standards for English Language Arts (Grade 7)

**7.2.W.1:** Students will apply components of a recursive writing process for multiple purposes to create a focused, organized, and coherent piece of writing.

**7.2.W.4:** Students will edit and revise multiple drafts for organization, transitions to improve coherence and meaning, using a consistent point of view.

**7.8.W:** Students will write independently over extended periods of time (e.g., time for research, reflection, and revision) and for shorter timeframes (e.g., a single sitting or a day or two), vary their modes of expression to suit audience and task, and discover different perspectives.

act.org (6-12)

**L&C 401:** A score in this range indicates that the writer is able to: -Make adequate word choices that convey the argument with clarity -Make stylistic choices, including voice, tone, and diction, that are appropriate for the given writing purpose and topic

#### **Materials**

- Lesson Slides (attached)
- My Life in a Photograph handout (attached; one per student)
- Sensory Word List handout (attached; one per student)
- Identity Chart handout (attached; one per student)
- Peer Revision Checklist handout (attached; one per student)
- "The Jacket" by Gary Soto short story (linked; one per student or access to the digital story)
- Highlighters (one set of five different colors per group)
- Block of sharp cheddar cheese (optional)

# **Engage**

#### **Teacher's Note: Free-Write Preparation**

Prior to the lesson, consider creating an example free-write using the **My Life in a Photograph** handout. When shared with students, your free-write may serve as an example of the activity as well as an opportunity to build relationships through shared life experiences.

Use the attached **Lesson Slides** to guide the lesson. Display **slide 2** and introduce the title of the lesson. Transition through **slides 3-4** and read the essential questions and lesson objectives.

Distribute one copy of the **My Life in a Photograph** handout and show **slide 5**. Tell students that they are to complete a timed free-write about the topic on the slide using their handouts. Notify students that they should write continuously for five minutes about the prompt and focus on putting as many ideas on paper as possible. Assure students that their writing does not have to be high-quality and that there are no right or wrong ideas. If you created a sample free-write, consider sharing it with students before they begin writing. Start the <u>5-minute timer</u> and have students start writing.

Show **slide 6** after time is up and have students find an <u>Elbow Partner</u>. Tell students to discuss their writing with a nearby partner. Allow students adequate time to discuss, then call on volunteers to share out a few responses from each section of their handouts.

15 minutes

# **Explore**

Have students hold on to their free-write papers. Tell them that they will add to their free-writes later in the lesson to create descriptive writing.

Display **slide 7** and show the <u>Sensory Details</u> video to the class. The video discusses the process of adding sensory details to enhance a piece of writing.

#### **Teacher's Note: Creating Sensory Awareness**

The Sensory Details video invites students to consider sensory details related to a wedge of sharp cheddar cheese. To heighten students' sensory awareness, consider displaying a block of cheddar cheese in the classroom. Later in the lesson, students will have the opportunity to see, touch, and smell the cheese.

#### **Embedded video**

https://youtube.com/watch?v=kWIGhi0lVmw

Display **slide 8**. Using either the physical block of cheddar cheese or the image of the wedge of cheddar cheese on the slide, have partners work together to describe the visual appearance of the cheese. Encourage students to consider how they would describe the cheese to a person who has never seen cheddar before. Allow students adequate time to write, then invite volunteers to share out their descriptions.

Transition to **slide 9**. Ask students to now consider how they may use sensory details to appeal to the sense of touch. How does a block of cheddar cheese feel to the touch? How would they describe the texture? Can they think of things that may feel similar to the cheese that they could use for comparison? Have partners collaborate to create a descriptive sentence that appeals to the sense of touch. Consider inviting one student at a time to touch the block of cheddar cheese. Allow students a few minutes to create their sentences, then invite pairs to share out their descriptions.

# **Explain**

#### **Teacher's Note: Activity Preparation**

In this phase of the lesson, students will participate in an activity that involves background music. You may consider choosing the music for the activity in advance.

Pass out one copy of the attached **Sensory Word List** handout to each student. Display **slide 10** and have students take a moment to read through the words on the handout, then instruct them to add as many additional sensory words to the charts as possible.

Display **slide 11** and explain the instructions for the <u>Mingle</u> activity. Tell students that they should walk around the room and mingle with other students while music plays. Once the music stops, they must partner up with the person closest to them and compare their lists of sensory words. Both partners should add words from each other's lists to their own. Allow students time to compare lists then start the music again. Repeat this process two or three more times.

## **Extend**

#### **Teacher's Note: Activity Preparation**

Prior to the lesson, print copies of the short story "The Jacket" by Gary Soto or provide students with access to the link so they may read a digital copy.

You may access this work digitally without an account. To print copies of the story, you must visit <a href="CommonLit.org">CommonLit.org</a> and log in or sign up for a free account. Return to this lesson and follow the link to the work you would like to print. Select "Download PDF" and follow the directions to print copies of the story.

For students whose first language is not English, CommonLit.org provides translations of the digital versions of the story. Have students select "Translate" above the "Activities" box and choose their preferred language. Once they select a language, a globe will appear to the left of each paragraph. Students may then click on the globes to read a translation of each section in a pop-up window.

Tell students that they must now identify sensory details in someone else's writing. Distribute one copy of "**The Jacket" by Gary Soto** to each student or provide them with the <u>link</u> to access the short story digitally.

Display **slide 12** and pass out one copy of the **Identity Chart** handout to each student. Read aloud the directions on the slide and explain to students how to fill out the <u>Identity Chart</u>. Have students fill out their charts with sensory words that were used in the short story. Tell students to notate which senses each words appeal either beside the words or by marking each with a color or symbol and creating a key.

Allow approximately five to seven minutes for students to work. Invite students to share out some of the sensory details they found in the passage.

#### **Teacher's Note: Assessment**

You may consider collecting students' Identity Charts to serve as an assessment of the lesson alongside the assessments included in the Evaluate section.

Show slide 13 and read aloud the prompt, "What makes you feel like "you"?"

Tell students to respond to the prompt by writing about an event or place that makes them feel like themselves. Have students describe where they are, what they're doing, and why this place, activity, or event brings out their true selves.

Tell students that they must write at least two paragraphs and their writing must contain sensory details that appeal to at least three of the five senses. Encourage students to revisit their My Life in a Photograph free-writes and Sensory Word Lists for inspiration.

## **Evaluate**

#### **Teacher's Note: Categorical Highlighting Materials**

In this phase of the lesson, each student will highlight sensory details in their partner's work using a different color for each of the five senses. **Slide 14** includes the following colors assigned to each sense:

- Sight = Yellow
- Smell = Green
- Touch = Pink
- Taste = Blue
- Sound = Orange

You may choose to change these colors on the slide depending on the colors you have available. You may also choose to have students annotate the senses using colored pencils, crayons, or whichever coloring utensils you have on hand.

Once students have completed their two paragraphs, have them find a partner. Pass out one copy of the attached **Peer Revision Checklist** handout to each student and display **slide 14**. Pass out one set of highlighters to each student and introduce the <u>Categorical Highlighting</u> strategy. Tell students to use the key present on the slide to highlight details related to the five senses in their partner's writing.

Tell students to use their Peer Revision Checklist as a guide to review their partner's work. Explain that they should provide feedback to their partner using the checklist as they annotate sensory details in their partner's writing. Have students trade papers.

Once students have finished reviewing each other's papers, transition to **slide 15**. Have them return their papers to the original authors along with the Peer Review Checklist. Have each student review their partner's notes then edit their writing based on the feedback.

Have students create a final draft of their paragraphs. Instruct students to turn in their final drafts along with the Peer Revision Checklist they received from their partner. Use students' final drafts as an assessment of the lesson.
