

## Research Poster Checklist

- **Research Summary:** Define both shell shock and Post-Traumatic Stress Disorder (PTSD) in your own words. You must use credible sources including **Common Mental Disorders** handout.
- **Available Treatments during WWI:** Describe how shell shock was treated during WWI and soldiers' coping mechanisms.
- **Available Treatments for PTSD today:** Describe what treatments are available for PTSD today.
- **Societies Reactions:** Describe how society reacts to mental disorders. Compare how shell shock was received during the WWI era and how PTSD is today.
- **Formatting:** Ensure your Research poster is neat, organized, free from grammatical errors, and uses your own voice.
- **Organization:** Present information in an organized way so that someone learning about it will understand how it works.
