

## STUDENT APOCALYPSE RUBRIC

**Suggested Use:** Award students points for each category accordingly—Time, Cost, and Livability. The number of total points should be equal to the number of group members. (For example, if you have eight groups, the group that took the least amount of time would earn 8 points. The next closest time would earn 7, etc.). For the final category, Number of Disasters Survived, award 1 point for each disaster the group’s house survives. (Ex: Group 1 survives 3 disasters, they earn 3 points).

The group with the highest number of points wins.

Student Group	Time	Points	Cost	Points	Livability	Points	# of disasters survived	Points
