

## REFLECT & DISCUSS

**Directions.** Respond to the following question using the lesson content and your own knowledge and experiences. Be as thorough as possible. Then, share with your group and write notes on their answers below.

**Question #1 – Reflect on a time when you encountered insects in your daily life. How did their presence affect your surroundings or your perception of the environment?**

**Write your response here.**

Did your thinking change? Explain.

**Question #2 – Consider a time when you had to investigate a complex issue or challenge. How did you approach gathering information and analyzing different factors to find a solution?**

**Write your response here.**

Did your thinking change? Explain.
