

## FICTION IN THE FACTS

Can you spot the fictional statement hidden among these facts?

### Poster 1: The Sun

- 1) You could fit about a million Earths inside of the sun.
- 2) The Sun makes noise, but we can't hear it because sound can't travel that far.
- 3) The Sun is the coldest star in the galaxy.

## FICTION IN THE FACTS

Can you spot the fictional statement hidden among these facts?

### Poster 2: Planets

- 1) Saturn's rings are made of tiny bits of ice and rock.
- 2) You could float on Jupiter if you had a big enough raft.
- 3) Some of Jupiter's moons are bigger than Earth's Moon.

## FICTION IN THE FACTS

Can you spot the fictional statement hidden among these facts?

### Poster 3: The Moon

- 1) The same side of the Moon always faces Earth.
- 2) There's a secret Moon base hidden on the dark side.
- 3) Astronauts left footprints on the Moon that are still there today.

## FICTION IN THE FACTS

Can you spot the fictional statement hidden among these facts?

### Poster 4: Space Travel

- 1) It would take about 6–9 months to travel to Mars.
- 2) Astronauts can grow taller in space.
- 3) People have already landed on Mars.

## FICTION IN THE FACTS

Can you spot the fictional statement hidden among these facts?

### Poster 5: Planet Earth

- 1) Earth is the only planet we know of that has liquid water on the surface.
- 2) The sky is blue because space reflects off the oceans.
- 3) From space, Earth looks like a blue marble.
