

# MOON PHASES WHEEL

## Directions

1. Cut out both the large Wheel A and Wheel B.
2. Cut out the viewing window section in Wheel A.
3. Place Wheel A on top of Wheel B and attach them with a brad in the center of the wheels.
4. Draw the moon phase on each section of Wheel B.
5. Rotate Wheel A on top of Wheel B to see each moon phase.

## Wheel A

## Wheel B
