Time Frame 60 minutes

Essential Question(s)

Summary

During this interactive professional development session, participants will explore what makes an instructional strategy effective and student-centered. The instructional strategies highlighted in this session promote authentic learning by encouraging student ownership of the learning process. Participants will collaborate by engaging in meaningful conversations around how both the strategies highlighted in this session and strategies explored on LEARN can be adapted and implemented in their secondary classroom. The goal of this session is for participants to leave with a variety of effective student centered strategies that they can immediately bring into the classroom.

Learning Goals
