

### 30 SECOND EXPERT

In the left column, write down as much as you can about what you already know about the Roaring 20's. When you have finished, share your knowledge with a partner and your partner will share what they know with you. Once you have had a chance to share with your partner, fill in the column on the right with everything you have learned from your partner.

What I know about this topic	What I learned from my partner.
