BINGO: FIND SOMEONE WHO CAN...

|  | B | 1 | N | G | 0 |
| :---: | :---: | :---: | :---: | :---: | :---: |
| 1 | Clear calculator RAM | Type a fraction into the calculator - using the $\mathrm{y}=$ button | Get out of a menu (Quit) | Evaluate 29! | Type a sentence |
| 2 | Store 4 as the variable <br> s. | Define an equation in the calculator app. Define $f(x)=$ | Graph a function f1 $(x)=$ | Approximate 4(pi) - <br> e | Find the $Y$ value when $X$ is 5 in the table |
| 3 | Type the fraction expression $1 / 2+3 / 4$ | Change the window of the graph | Turn on the calculator | Change the expression in B3 to a decimal | Find $\sin (30)$ |
| 4 | Test is $3 \mathrm{~s}+6=18$ | Factor 24 | Change 0.304348 to a fraction | Eliminate the axis from the graph | Zoom the graph out |
| 5 | Graph a function on PLOT 2 | Type a $2 \times 2$ matrix | Change graph to polar graph | Calculate $\log 48$ | Switch from degrees to radians. |
