

# TEACHER EXPECTATION AND SUPPORTIVE RELATIONSHIPS CARD SORT

LEADERS	TEACHERS

Provide teachers with the necessary materials and professional development to implement student-centered instruction.

Foster trusting relationships with teachers, students, and families through consistently honest, open, and compassionate interactions.

Support students in learning how to self-regulate their own emotions and behavior rather than focusing on behavioral problems.

Provide intellectually demanding but accessible learning activities.

Treat students with warmth and support in class and individually.

Use strategies for differentiating instruction that challenges each student at their level of prior knowledge, ability, and interest.
