LEARN TASK CARD – TECH TOOLS

Before Questions:

- How do you currently integrate tech in your classroom?
- What is needed to successfully integrate technology?
- How important is it to integrate technology in your classroom?

Explore a tech tool of your choice:

- Pick 3 tech tools that seem interesting to you. Record these choices on your note catcher below.
- Which type of tech works best for your classes?
- When would it be most appropriate to integrate tech into your lesson? (Which E? Why?)

Closing Questions:

- Is there any background knowledge that your students would need to be successful with this tech?
- Are there any aspects we should consider adding to help navigating the tech tools?
