HOW TO CREATE GOOGLE DRAWINGS

Following is the task list from the G Suite & Google Classroom presentation with accompanying screenshots. Work through the list to familiarize yourself with Google Drawings.

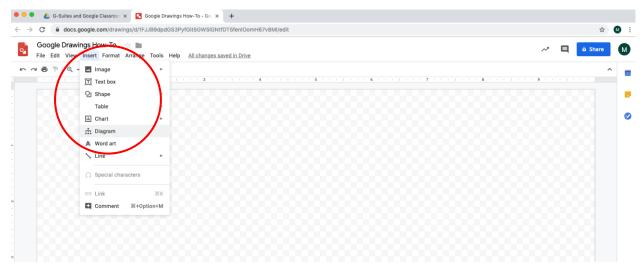

Task List

1. Click New, go to more, and choose Google Drawings

2. Create a flowchart of a subject of your choice (example: Hierarchy of an organization or life events). Templates are available under Diagrams (or you can make your own using shapes and lines).

3. Give it a title
