APPLE CLIPS

Summary

Create short videos by shooting, editing, and customizing. Add your own graphics, images, and effects.

Procedure

1. Open the Clips App.

2. Tap [+] to start a New Project.

3. Hold the red bar to record.

4. Let go of the red bar to stop recording.

5. Sort, Cut, and Edit clips from the bottom timeline.

6. Add graphics, filters, texts, and many other options.

7. View a clip by tapping on the image in the timeline.

8. Export and share.

Apple Inc. (2017). Clips. Apple app store.
