MATHSBOT

Summary

Through Mathsbot students can work in a whole class or a small group setting to interact virtually with manipulatives. This is a way for students to increase their conceptual understanding of mathematical concepts. Teachers can use this resource for teaching concepts or remediation.

Procedure

1. Navigate to https://mathsbot.com/manipulativeMenu
2. Choose the manipulative that is appropriate for your lesson.
3. Copy the URL for the manipulative page.
4. Share the URL with your students or use a QR code.
