EDUCREATIONS

Summary

Annotate, animate, and narrate nearly any type of content to explain concepts. Teachers can create short instructional videos, share them instantly with students, or ask students to show what they know and help their friends learn something new.

Procedure

1. Open app to a blank white board.
2. Use tools to create your demonstration while recording your voice with instructions.
3. Revisit your finished lesson anytime as they are securely stored in your online Educreations account.
4. Share links using email, Messages, Facebook, Twitter, or by embedding them in your blog or website.
