TECH TOOLS

iMovie

With iMovie, it is possible to create videos as part of a unit or lesson, to introduce a concept, or to use for student products.

IMOVIE

Summary

iMovie puts everything you need to tell your story at your fingertips. With an accessible interface, students can browse videos, share moments, and create their own movies.

Procedure

1. Open iMovie.
2. Tap the plus sign.
3. Choose a theme and begin recording. Alternatively, begin dropping in pre-recorded videos and pictures.
4. Crop, edit, and add sound and animation!
