TIMETOAST

Summary

Timetoast allows students and teachers to create timelines online. You can import images, add links, work collaboratively, and share timelines with others.

Procedure

1. Navigate to Timetoast.

2. Select the **Sign in** button and enter your username and password, or select **Sign up** to create an account.

3. Select **Add timeline +** to begin creating a new timeline.

4. Enter a title, select a publish status and category, and select **Upload** to optionally add an image that will appear next to the timeline title.

5. Select **Create timeline** to finish creating your new timeline.

6. Select **Add event** begin adding events.

7. Enter a title, add a date, and optionally include a description or photo.

8. Select **Create event** to add the event to your timeline.

9. Select **Add timespan** to begin adding a timespan to your timeline.

10. Enter a title, add a start date and end date, and write an optional description.

11. Select **Create timespan** to add the timespan to your timeline.

12. Continue adding events until your timeline is complete.
